

Dear Year 6 Students,

I know moving up from Year 6 to Year 7 is a big thing. That is why I am here to help you embark on that journey. When you first join, you might be scared and nervous, but you will soon get over it. You will realise that you are in an encouraging environment, full of friends.

The teachers in the school are really helpful, which makes every lesson fun and exciting. If you're worried about getting lost then don't! The teachers will give you clear instructions about where to go. Also, if you're an ambitious student and you're aiming to be head boy, the teachers can help you get beyond your goal.

When I first came, I was worried about making friends because I was the only one coming to Burnage from my primary school, but I found that there were friends everywhere, even out of class.

My advice is: aim for the best, stay focused and work hard to achieve your goals.

Best wishes,

Soban
