

Dear Year 6 Students,

Welcome to Burnage Academy, my name is Abdullah.

When I came to this school I was worried about everything. Subjects, people, literally everything!  
Then I realised that it was all easy. What I did to make it easy was to start working with confidence.  
And I made it.

This school has very good teachers, and if you don't understand something, you can ask them.

My advice to you: don't look at what other people are doing, just focus on what you are doing.

Abdullah
