

Year Group	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 9	Integers and Indices	Functions and Sequences	2D and 3D Shapes	Theoretical and Experimental Probability	Perimeter, Area and Volume	Pythagoras and Trigonometry
	Factors and Multiples	Fractions and Decimals	Angles	Transformations	Direct and Inverse Proportion	Circles and Cylinders
	Expressions and Formulae	Percentages	Graphs	Angles in Polygons	Congruent and Similar Shapes	Charts and Averages
	Equations and Inequalities	Estimation and Approximation	Ratio and Proportion	Gradients	Compound Units	Bearings and Scale Diagrams
Year 10	Data Collection and Sampling	Accuracy and Bounds	Constructions and Loci	Graphical Solution of Equations	Standard Form	Compound Units
	Organising, Presenting and Analysing Data	Circles, Spheres and Pyramids	Geometric Proofs	Algebraic Solution of Equations	Surds	2D and 3D Representations
	Primes, Factors and Multiples	Pythagoras and Trigonometry	Direct and Inverse Proportion	Fractions and Decimals	Inequalities	Trigonometry
	Algebraic Manipulation	Proofs and Formulae	Percentage Change	Bivariate Data		
Year 11	Circle Theorems	Straight Line Graphs	Transformations	Functions		
	Probability	Real-World Graphs	Similar Figures	Vectors		
	Sequences	Non Linear Graphs	Transformations of Graphs
